Trial of the Challender such We, the undersigned, clizens of this City having ucled as a Committee on the trial of one of the Chuller's Safe annufactured by Horaback & Wigner, or this city, wearing a secretary afternoon, certify by this, that said safe was placed on four such brick layers, treaty inchement the ground, surveined by a clickling wall, about Sade was placed on four small brick begars, twenty inclies from the ground, surreamined by a circular wall, about they feet distant from the Safe, and ceaching in ore than a font above it, and covered from all sides as well as from top, and bottom by wood, thus filling the whole space betteen the Safe and the wall and some way upwards, with that the proceeds of them. We have the present of the memera measure and the with and some way in wards, with just four cords of wood. We having inspected the books, juspers and heats hills that were placed in the Safe, fire was set to the pide of wood, and owing to a quantity of top-peating which had been poured on the wood-pile, the whole wis in a short time all in a bloze. The inmest then continued raging for an hour and a half around, above and below the Safe, mediting off, as solid brask shoul of an inch and seven-eighths in thickness, and bringing the Safe to assatche heat, when we, the Commistice, considering this a fully satisfactery trial, and one dutit a safe is omesally subjected to fine case of coinfigration, concluded to let an engine play on it. This was quickly brought in exceeding the stream of water being directed against the Safe, and after it but thus been cooled off and the flames extinguished, to mind of approach, it was tried to he opened, which after come little time was effect ed, when in our presence, the Safe was opened, and to the assonishment of all necessary present, the articles deposited inside, including \$15 in bank ones belonging to Mr. Halley, were found unriquend by fire, and only, some of them slightly damped by the steam contribed by extinguishing the fluency, Bully convinced that the test safel Safe was subjected to was a fully satisfactivy one, and much severer han any ever before given in this city, we take the opportunity of recommending the than lenges hades of Hornbach & Wagnet to all who any stand in need of a care guid for their books, pain an extending and the landing and an article of their books, pain an extending to the Arabo, of H. The Senate has this morning passed a long list of bills, which will have reached you by telegraph ere this. Among them was an old settler coming down to us from that former generation which built this Capitol, and which (the claim) has at various times heretofore received but small favor in the Legislatures, to-wit a claim of Mrs. Bird for some \$200,00, for potatoes furnished the men who built the Capitol, for board, &c. four miles to the East. From the N. Y. Com. Advertises The position originally assumed by Governor Barstow was radically false. It is a sound legal maxim that every wrong has its remedy, but if Governor Barstow's position was right, there would be no remedy for the usurpation of the gubernatorial office by fraudulent means. If the Supreme Court of a state has no power to income Supreme Court of a state has no power to inquite into any individual's right to hold the office of Governor, merely because he is in possession, and is thereby made a co-ordinate and co-equal power with the Judiciary, where would be the remedy for the people if their clearly expressed will was negatived by collusion between the ollicial canvassers and the cardidate whom the popular will had rejected? The necessity for power to enquire how an individual obtained office is so obvious, that one marvels Governor Barstow should ever scriously interpose the plea of non-presidentian.

Police Court, March 27. A CARR OF CINCOMSTANTIAL EVIDENCY -On the 18th A Cast of Chowsers with a result of their was ex-this month, (March) a man named Henry Sauer was ex-amined in the Police Court on charge of stalling from the person of John Wesler a check on the alliwaukes Bank, drawn by Joseph Cordes for \$46,72, in favor of complainant; defendant was committed for irial in default of \$500.

The stidence on the examination showed that the comdainant hald down on a setter in the bar room of the Farmers' Home, Sast Water street, having the check in pook at the lime, that while lying saleep, the con plainant was somewhat drunk, the defendant was seen by the chambermaid, who came into the bar room fer some thing, to be feeling about the complainant's pockets, and also by another person to be feeling about his body, and hen told to design he again felt about the complainant. When arrested, defendant was found in possession of which arresting, defending which was a "dummy," a strong circumstantial case was made out against him, too strong LECTURES ON MAN to permit his discharge by an examining magistrate, and strong enough to warrant a petit jury in convicting him. On Wednesday evening, (19th) the bar keeper of the Farmers' Home, while sweeping out the bar room, found the check under the settee upon which Wieler had lain on

the 17th; the check was shown to the District Attorney, and upon his being informed of the attending curoumstac-ces, the discharge of Bauer was directed, and on the Σ th, after lying in a loathsome jail 3 days he is discharged, al parties satisfied of his innocence. Circumstances are no always to be setted on as exidence of sult. ingdrunk, was again brought up this morning for being drunk and fined \$8. A warrant was issued against Patrick Delphanty,

complaint of Policeman Capron, charging him with hav-ing "knowingly resisted complainant and David Coughlin and there being Pollocmen of the city of Milwaukee ministerial officers engaged in the act of arresting one William Delehanty for a breach of the peace then and there being committed," on the Soth March A warrant was issued against William De'shanty on complaint of Policeman Coughlin, charging him with as-sailting complainant with a knife, "with intent then and there the said complainant to kill and murder "

Both the above defendants were under arrest; the ball in the resistance case was fixed at \$500, and in the atio kill matter at \$1900, no ball was given up to 4 Patrick Larney, for being drunk was fined \$1, in de-

fault of payment was sentenced to five days in the County RIOT, RESISTANCE, AND ATTEMPT TO THE Policiman.-On Wednesday night a row of some bind shanty A resistance was made, and a desperate attack

took place on Huron street, and Policemen Capron and Coughlin went to quelt it, and arrested a man named Dei on Policeman Coughlin with a knife. The Police men finding themselves overpowered, had to give way although they were well armed. We believe the man who is charged with the worst part of the fraces, has hitherto borne a good character, but on Wednesday night was un-der the damning influence of Whiskey, and but for the agility and courage of the Policemen, might now have to answer the charge of murder. This is the second instance within a few days, in which

the Police have either had to retire or take life, the force should be increased, so that Policemen should have no dread of being overpowered. The Police of this city is no political power. In its members can be found Irish, Germ ans, and Americans, Catholics and Protestants. The st ject of its organization was the preservation of the public peace, and until recently the city was quiet Now regist the officers seems to be the rule, and not the exception but the Police will be sustained in doing their duty, an shower results them, may count on the act recoiling .

Morning Session.

March 27.
Assembly met at 10 A M. Soon after the House met Mr. Potter objected to more legislation, while the House was in its present acoustous condition. Mr Stark offered a protest of the Democra against the proceedings of the Supreme Court, and declaring their belief that Mr. Bashford was not duly elected Governor. A very long debate agrang up, in which the Speaker allowed the fullest latitude. The protest was spread on Journal, and Mr. Huntington moved a committee of three to wait on Gov. Bashford and acknowledge him as Gover-

nor. Mr. Farr said he held that the gentlemen who bad signed the protest, were bound now to vote for acknowledging Gor Bashford.

"Mr. Woodman objected to this course. He did not understand it to be so. Mr. Cram had agned the protest not only to show where he was, but as a compromise

BY STRAM, MORSE, OR WATER POWER. In presenting this wonderful machine to the public, the patenties and proprietors wish to make no vain house of in abilities, or seert in its beliaff a single word which quanto he substantially and antifactorily maintained, and they appeal to the practical brick makers of our country with condidence, when they said, that such a machine is in positive and absolute demand. The business of brishmaking is now engrossing great attention, and the raddigrowth of our fand seems to show that our present facilities will hardly meet a fraction of the demand for the useful articles which it is requested to bear they fails now engrossing the set of bearing the plan when it is not been to be form the price of the same and the anomalustrue. West, the supply has not been about the foreign that they give manufactor the machine state of the same said the anomalustrue has been the prices of bricks have been excellent, and that meet especially during the very last year it has been almost an extortion.

Saves a Coursemos Frick Maciline is built mostly of isom is about four for aquare, and are feel high in the rear.—When it is worked by horse-power, with four or five hands supplyed, (an mare being required,) it turns out from four-team to sighteen thougant brick by per day of ten hours. It is secassifully operated by any ordinary laborers, who, by it, become thig conspected to the nost intelligent and experienced by the head of the most intelligent and experienced by the beautiful to the nost intelligent and caperies and the secassiful to the machines.

Dair Siz.—I have examined with much care and interest your Brick Moulder and Temperer, on Capitol Hill, to this sky, and cheerfully bear testimony to its excellence. I comider its simplicity of construction, its rapidity of elections, and it on any that the superince of twenty-fire years in the manufacture of bricks, has given me good opportunities of judging closely in this matter. I finith your machine is unrivaled as a Brick Machine in the United States.
